

**SELECTED JOURNAL/CONFERENCE PAPERS**

1. Low S P (1989) An evaluation of quality in construction, *The Professional Builder*, Singapore Institute of Building, 4(1):28-36.
2. Low S P (1990) The organization of construction export marketing: Theory and practice, *Journal of Real Estate and Construction*, 1(1):82-98.
3. Seymour D E and S P Low, (1990) The quality debate, *Construction Management and Economics*, 8(1):13-29.
4. Low S P (1990) Global construction industry: The North-South divide, *Habitat International*, 14(4):97-117.
5. Low S P (1990) A study of the construction industries in ASEAN: 1970-1984, *In Proceedings of the First Asean International Symposium on Construction and Development*, organized by the Asean Constructors Federation, 7-8<sup>th</sup> May, Kuala Lumpur, Malaysia, pp.126-139.
6. Low S P (1990) The APEC concept and implications for the ASEAN construction market, *In Proceedings of the First Asean International Symposium on Construction and Development*, organized by the Asean Constructor Federation, 7-8<sup>th</sup> May, Kuala Lumpur, Malaysia, pp.140-153.
7. Low S P (1990) Global markets in construction: A north-south comparison, *In Proceedings of the International Council for Building Research Studies and Documentation (CIB W55/W65)*, Vol. 1, ed. V Ireland, University of Technology Sydney, 14-21<sup>st</sup> March, Sydney, Australia, pp.252-264.
8. Low S P (1990) World markets in construction: I. A regional analysis, *Construction Management and Economics*, 9(3):63-71.
9. Low S P (1990) World market in construction: Part II - A country-by-country analysis, *Construction Management and Economics*, 9(3):73-78.
10. Low S P (1991) Construction export marketing: The Singapore experience, *Asia Pacific International Journal of Marketing*, 3(2):6-25.
11. Low S P (1991) Quality management in the construction industry: The challenge for IT in Singapore, *In Proceedings of the Second IES International Conference on Information Technology: Advances and Development in Information Automation*, Institution of Engineers Singapore (compiler), 4-6<sup>th</sup> July, Singapore, pp.141-151.
12. Low S P and R Wong (1992) NUS-SISV joint research project on construction procurement methods in Singapore, *SISV Journal*, Singapore Institute of Surveyors and Valuers, 1(4):27-35.

13. Low S P and K H Goh (1992) Quality assurance in construction: The engineers' perspective in Singapore, *Cost Engineer*, Association of Cost Engineers, 30(4):8-11.
14. Low S P (1992) The strategic outlook for construction business, *CIDB Construction Economics Report*, Construction Industry Development Board, Singapore, pp.1-13.
15. Low S P and C H Y Leong (1992) A revisit to Turin's paradigm: Construction and development in the 1970s and 1980s, *Habitat International*, 16(3):103-117.
16. Low S P (1992) The Just-In-Time Concept to Improving Manufacturing Productivity: Is it Applicable to the Construction Industry? *Construction Papers Series*, Paper No.1, Chartered Institute of Building, 8pp.
17. Low S P and K H Goh (1992) Construction quality assurance: an architectural perspective in Singapore, *The Professional Builder*, Singapore Institute of Building, 7(4):31-38.
18. Low S P (1992) Raising construction productivity in Singapore, *SES Journal*, The Stock Exchange of Singapore, 20(12):28-32.
19. Low S P and K H Goh (1993) Implementing QA in a newly industrializing economy: The case of Singapore, *Construction Papers Series*, Paper No.20, Chartered Institute of Building, 8pp.
20. Low S P and K H Goh (1993) The practice of quality and quality assurance in the Singapore construction industry, *Quality Forum*, Institute of Quality Assurance, 19(1):40-45.
21. Low S P and O B Tan (1993) The role of cement in economic development, *International Cement Review*, February Issue:44-50.
22. Low S P (1993) The conceptual relationship between construction quality and economic development, *International Journal of Quality and Reliability Management*, 10(2):18-30.
23. Low S P and K H Goh (1993) The developers' perspective to QA in a newly industrializing country, *International Journal for Housing Science and Its Applications*, 17(1):57-66.
24. Low S P (1993) A need for synthesizing construction and marketing in global economic development, *Journal of Real Estate and Construction*, 3(1):64-84.
25. Low S P (1993) The rationalization of quality in the construction industry: Some empirical findings, *Construction Management and Economics*, 11(4):247-259.
26. Low S P and H S Lee (1993) Effectiveness of the managing agent in property management and maintenance, *Facilities*, 11(9):5-15.

27. Low S P and S P Tan (1993) The Relationship between Construction, Marketing and Economic Development in Singapore, *RICS Research Paper Series*, Paper No.27, Royal Institution of Chartered Surveyors, 62pp.
28. Low S P (1993) The Relationship between Construction, Marketing and Economic Development. A Study of Historical Trends in Great Britain, USA and Japan, *RICS Research Papers Series*, Paper No.29, Royal Institution of Chartered Surveyors, 38pp.
29. Low S P and S H Kee (1994) Influence of developers' characteristics on real estate agency appointments for marketing in Singapore, *Marketing Intelligence & Planning*, 12(11):4-15.
30. Low S P (1994) ISO 9000: Implementation problems in the construction industry, *Quality World*, Institute of Quality Assurance, 228-234.
31. Low S P and K K Yeo (1994) Sun Tzu's art of war: Applications for leadership qualities and client - project manager relationship, *The Management Development Journal of Singapore*, Management Development Institute of Singapore, 4(1):10-30.
32. Tay P H and S P Low (1994) The fuzzy industry maturity grid (FIMG) and its application to the Singapore construction industry, *Construction Management and Economics*, 12(2):125-138.
33. Low S P (1994) Balancing construction and marketing in world economic development: The four global scenarios, *Construction Management and Economics*, 12(2):171-182.
34. Low S P and K H Goh (1994) Construction quality assurance: Problems of implementation at infancy stage in Singapore, *International Journal of Quality and Reliability Management*, 11(1):22-37.
35. Low S P and W H Ung (1994) Quality assurance for civil engineering works in Singapore's public housing projects, *International Journal for Housing Science and Its Applications*, 18(1):9-20.
36. Low S P (1994) The link between construction, marketing and economic development: A study of Africa and Asia, *UCT Research Paper Series*, Paper No.3, University of Cape Town, 60pp.
37. Low S P and S H Kee (1994) A survey of the important attributes for marketing real estate agency services in Singapore, *Property Management*, 12(2):22-27.
38. Low S P and C P W Loi (1994) Implementation of the goods and services tax (GST) in the Singapore construction industry, *Journal of Property Finance*, 5(3):41-58.
39. Low S P and S H Kee (1994) Motivational factors for developers' appointment of real

- estate marketing agents in Singapore, *Journal of Property Research*, 11(4):237-251.
40. Low S P (1995) The need for integrating architectural, M&E and structural designs for construction: A round-table discussion, *Focus on Property and Construction in Singapore*, School of Building and Real Estate, National University of Singapore, 6(1):59-62.
  41. Low S P and C S Tan (1995) A convergence of western marketing concepts and oriental strategic thinking, *Marketing Intelligence & Planning*, 13(2):36-46.
  42. Low S P (1995) Construction quality in Singapore: Evaluation, implementation problems and lessons for the future, *International Journal for Housing Science and Its Applications*, 19(3):143-155.
  43. Low S P and Loh K L (1995) The QS response to ISO 9000 in Singapore, *SISV Journal*, Singapore Institute of Surveyors and Valuers, 4(1):19-23.
  44. Low S P and R Sirpal (1995) Western generic business and corporate strategies: Lessons from the Thirty-six Chinese classical strategies of war, *Marketing Intelligence & Planning*, 13(6):34-40.
  45. Low S P and V P L Tan (1995) Ethical expectations in the Singapore real estate industry, *Property Management*, 13(4):5-12.
  46. Low S P (1995) Lao Tzu's Tao Te Ching and its relevance to project leadership in construction, *International Journal of Project Management*, 13(5):295-302.
  47. Low S P (1995) The role of construction and marketing in economic development: A framework for planning, RICS Research Paper Series, 1(3), Royal Institution of Chartered Surveyors, 56pp.
  48. Low S P (1995) *Challenges and Opportunities in the East Asian Century for Property Professionals from the West: Some Pointers From Ancient Chinese Sages*, Competition Report Paper, London: The CPD Foundation and Royal Institution of Chartered Surveyors, 10pp. (Won Certificate of Merit Award in the world-wide Millennium 2000 Essay Competition organized by The CPD Foundation, London in conjunction with 17 construction-related professional institutions in the United Kingdom)
  49. Low S P and C K Tan (1996) Implementation of ISO 9000 by architectural firms, *HKIA Journal*, Hong Kong Institute of Architects, 4<sup>th</sup> Quarter, Issue No.7:50-54.
  50. Low S P (1996) The influence of Chinese philosophies on mediation and conciliation in the Far East, *Arbitration: The Journal of the Chartered Institute of Arbitrators*, 62(1):16-20.
  51. Low S P and Y M C Chan (1996) The application of just-in-time principles to process

- layout for precast concrete production, *Singapore Management Review*, Singapore Institute of Management, 18(2):23-40.
52. Low S P and W C K Tan (1996) The influence of workload instability on quality in the construction industry, *International Journal of Quality and Reliability Management*, 13(3):42-56.

  54. Low S P (1996) The management of large-scale upgrading programmes for public housing in Singapore, *Property Management*, 14(4):27-32.
  55. Low S P and K W Peh (1996) A framework for implementing TQM in construction, *The TQM Magazine*, 8(5):39-46.
  56. Low S P and C K Tan (1997) ISO 9000 and small architectural practices in Singapore, *HKIA Journal*, Hong Kong Institute of Architects, 1<sup>st</sup> Quarter, Issue No.8:30-34.
  57. Low S P and E T Tan (1997) ISO 9000 quality management systems and small firms in the construction industry, *HKIA Journal*, Hong Kong Institute of Architects, 4<sup>th</sup> Quarter, Issue No.13:18-26.
  58. Low S P and H F Omar (1997) Integration, segmentalism and the maintenance of quality management systems in the construction industry, *Building Research and Information*, 25(1):36-49.
  59. Low S P and H M Kok (1997) Formulating a strategic marketing mix for quantity surveyors, *Marketing Intelligence & Planning*, 15(6):273-280.
  60. Low S P and S Y Wong (1997) Post-construction analysis of the Chinatown pilot conservation project in Singapore, *Facilities*, 15(1/2):12-17.
  61. Low S P and K L Tan (1997) The measurement of just-in-time wastage for a public housing project in Singapore, *Building Research and Information*, 25(2):67-81.
  62. Low S P (1997) A book of five rings: The Samurai way to achieving construction quality, *The TQM Magazine*, 9(2):159-164. (Won MCB University Press Topman Global Forum Award.)
  63. Low S P and S Y Wong (1997) Conservation and the Chinatown pilot project in Singapore, *Property Management*, 15(2):117-125.
  64. Low S P and F M Chan (1997) Quality management systems: A study of authority and empowerment, *Building Research and Information*, 25(3):158-169.

65. Low S P and C Chuvessiriporn (1997) Ancient Thai battlefield strategic principles: lessons for leadership qualities in construction project management, *International Journal of Project Management*, 15(3):133-140.
66. Low S P and K L Tan (1997) Quantifying Just-in-Time wastage: Case study of a design-and-build school project, *Journal of Real Estate and Construction*, 7(1):70-91.
67. Low S P and S K Lee (1997) East meets west: Leadership development for construction project management, *Journal of Managerial Psychology*, 12(6):383-400. (Won MCB University Press Citation of Excellence Award.)
68. Low S P and S K Lee (1997) Managerial grid and Zhuge Liang's Art of management: Integration for effective project management, *Management Decision*, 35(5):382-391.
69. Low S P (1997) Thick face, black heart and the marketing of construction services in China, *Marketing Intelligence & Planning*, 15(5):221-226.
70. Low S P and K C Yeo (1997) ISO 9000 quality assurance in Singapore's construction industry: An update, *Structural Survey*, 15(3):113-117.
71. Netto A M, S P Low and A L Lo (1997) Legal implications of ISO 9000 QMS in standard forms of building contract, *Training for Quality*, 5(4):169-177.
72. Low S P and H F Omar (1997) The effective maintenance of quality management systems in the construction industry, *International Journal of Quality and Reliability Management*, 14(8):768-790.
73. Low S P (1998) Managing total service quality: A systemic view, *Managing Service Quality*, 8(1):34-45. (Won MCB University Press Literati Club's Outstanding Paper Award.)
74. Low S P (1998) An agenda to restructure Singapore's construction industry for higher productivity and quality, *Singapore Architect*, Singapore Institute of Architects, Issue No.98:134-137.
75. Low S P and L L T'ng (1998) Factors influencing design development time of commercial properties in Singapore, *Facilities*, 16(1):40-51.
76. Low S P and K C Yeo (1998) A construction quality costs quantifying system for the building industry, *International Journal of Quality and Reliability Management*, 15(3):329-349.
77. Low S P (1998) Applying the thirty-six Chinese classical strategies of war to retail marketing and planning, *Marketing Intelligence & Planning*, 16(2):124-135.
78. Low S P (1998) Back to the basics: Biblical wisdom for effective construction project

- management, *International Journal of Project Management*, 16(4):209-214.
79. Low S P and L L T'ng (1998) The design development process of commercial building projects: Two case studies in corporate communications, *Corporate Communication: An International Journal*, 3(4):129-141.
  80. Low S P and P C F Chan (1998) Legal/contractual implications of the construction quality assessment system (CONQUAS), *International Construction Law Review*, 15(4):607-624.
  81. Low S P and K L Tan (1998) A survey of Just-In-Time applicability in construction, *HKIA Journal*, Hong Kong Institute of Architects, 4<sup>th</sup> Quarter, Issue No.18:32-42.
  82. Low S P and S K L Tan (1998) How "just-in-time" wastages can be quantified: Case study of a private condominium project, *Construction Management and Economics*, 16(6):621-635.
  83. Low S P (1998) The Effectiveness of Government's Assistance for Construction Exports in Singapore, *First International Construction Marketing Conference: Opportunities and strategies in a global market place*, ed. C N Preece, 26-27<sup>th</sup> August, University of Leeds, Leeds, United Kingdom, pp.235-242.
  84. Low S P and K G Ting (1999) Management contracting: a case study in construction procurement, *The Malaysian Surveyor*, Institution of Surveyors Malaysia, 34(1):15-24.
  85. Low S P and Sua C S (1999) Builders play safe with quality management systems, *Quality World*, Institute of Quality Assurance, 56-58.
  86. Low S P and W K Chong (1999) Integrating JIT into quality management systems, *Construction Information Quarterly*, Journal of the Chartered Institute of Building, Paper No.104, 1(2):10-21.
  87. Low S P and P K O Lim (1999) A case study on why design-and-build fails, *The Malaysian Surveyor*, Institution of Surveyors Malaysia, 34(3):20-26. (Won the Institution of Surveyors Malaysia Best Paper Award.)
  88. Low S P and S K Lee (1999) Developing construction project management skills: lessons from Zhuge Liang's Art of Management, *Career Development International*, 4(1):34-39.
  89. Low S P (1999) Success factors for managing en bloc property transactions, *Property Management*, 17(1):37-48.
  90. Low S P (1999) The extension of construction partnering for relationship marketing, *Marketing Intelligence & Planning*, 17(3):155-160.

91. Low S P (1999) Towards managerial efficacy: back to 2,000-year old guiding principles, *The Learning Organisation: An International Journal*, 6(3):121-131.
92. Low S P and P C F Chan (1999) Legal/contractual implications of the QFD technique used in the development and construction process, *International Construction Law Review*, 16(3):420-441. (The legal/contractual implications of this paper were developed from an earlier paper by the first author who won a Best Paper Award from the Singapore Institute of Engineering Technologists.)
93. Low S P, B K Tan and A L Ang (1999) Effectiveness of ISO 9000 in raising construction quality standards: some empirical evidence using CONQUAS scores, *Structural Survey*, 17(2):89-108.
94. Low S P and N H Lim (1999) The strategic responses of construction firms to the Asian financial crisis in 1997-1998, *International Journal for Construction Marketing*, 1(2):1-12.
95. Low S P and S H Mok (1999) The application of JIT philosophy to construction: a case study in site layout, *Construction Management and Economics*, 17(5):657-668.
96. Low S P, D K H Ho and S A Yeap (1999) Crisis management: a survey of property development firms, *Property Management*, 17(3):231-251.
97. Low S P and T S Wee (1999) The use of Chinese classical strategies in international construction marketing: some anecdotal evidence, *Asia Pacific Journal of Marketing & Logistics*, 11(4):23-46.
98. Low S P and J C Choong (2000) Managing precast concrete components: just-in-time deliveries and site layout for construction, *Journal of Construction Research*, 2(1):63-72.
99. Low S P and W K Chong (2000) Integrating JIT into quality management systems (Part II): a survey of construction firms, *Construction Information Quarterly*, Journal of the Chartered Institute of Building, Paper No. 113, 2(1):1-10.
100. Low S P and C H Chia (2000) Continuous improvement for design and construction using quality function development (QFD) in ISO 9000, *HKIA Journal*, Hong Kong Institute of Architects, 2<sup>nd</sup> Quarter, Issue No.24:20-25
101. Low S P (2000) An East-West business management framework for construction based on anecdotal cases from "Building" magazine, *The Malaysian Surveyor*, Institution of Surveyors Malaysia, 35(2):69-77. (Won the Institution of Surveyors Malaysia Best Paper Award.)
102. Low S P and B Abeyegoonasekera (2000) Legislation of buildability requirements: are we ready? *Bulletin of the Institution of Engineers, Malaysia*, February Issue:35-40.
103. Low S P and B Abeyegoonasekera (2000) Integrating buildability principles into ISO

- 9000 quality management systems, *Architectural Science Review*, 43(1):45-56.
104. Low S P and R B L Lim (2000) Quality systems QS 9000 for construction: is the industry in Singapore ready? *Journal of Construction Research*, 1(1):19-31.
105. Low S P (2000) Chinese business principles (770-221 B.C.): relevance for real estate marketing and management, *Asia Pacific Journal of Marketing & Logistics*, 12(1):17-36.
106. Low S P and P C F Chan (2000) Legal/contractual implications of the just-in-time philosophy in managing buildable and precast concrete construction, *International Construction Law Review*, 17(2):300-317. (Attained an Excellent Rating from His Honour Judge Humphery Lloyd, QC of the High Court of Justice in England and Wales.)
107. Low S P and C S Sua (2000) The maintenance of construction safety: riding on ISO 9000 quality management, *Journal of Quality in Maintenance Engineering*, 6(1):28-44.
108. Low S P and W M Alfelor (2000) Cross-cultural influences on quality management systems: Two case studies, *Work Study*, 49(4):134-144.
109. Low S P and C H Y Leong (2000) Cross-cultural project management for international construction in China, *International Journal of Project Management*, 18(5):307-316.
110. Low S P and P C F Chan (2000) Legal/contractual implications of QS9000 quality system requirements for the construction industry, *International Construction Law Review*, 17(4):622-645.
111. Low S P and W K Chong (2000) Integrating JIT into quality management systems (Part III): Three case studies of construction firms, *Construction Information Quarterly*, Journal of the Chartered Institute of Building, Paper No.116, 2(2):1-11.
112. Low S P and K O Lim (2000) Success factors for design-and-build in civil engineering projects: Two case studies, *Bulletin of the Institution of Engineer, Malaysia*, August Issue:57-64.
113. Ling Y Y, G Ofori and S P Low (2000) Importance of design consultants' soft skills in design-build projects, *Engineering, Construction & Architectural Management*, 7(4):389-398.
114. Karim K, M Marosszky, H W Chung, M Kumaraswamy and S P Low (2000) A comparative study of ISO 9000 quality management systems in the construction industry: Australia, Hong Kong and Singapore, *5th International Conference on ISO 9000 and Total Quality Management*, eds. S Ho and Chong C L, 25-27<sup>th</sup> April, Singapore: Hong Kong Baptist University and National University of Singapore, pp.440-444.
115. Low S P (2000) ISO 9000 as the foundation for buildability, productivity and safety:

- consolidating empirical findings from the construction industry, *5th International Conference on ISO 9000 and Total Quality Management*, eds. S Ho and Chong C L, 25-27<sup>th</sup> April, Singapore: Hong Kong Baptist University and National University of Singapore, pp.445-449. (Won the Best Paper Award.)
